

Independent Medical Evaluations

Founded in 1925 by Mose Gellman, M.D., OrthoMaryland is one of the oldest and most respected orthopaedic practices in the region. Dr. Gellman's mission was to build an orthopaedic practice founded on teamwork, expertise and superior care, a mission we continue upholding today. Among our achievements, we are recognized for pioneering arthroscopic surgery in Maryland.

Leaders in treating workplace injuries

For more than five decades, OrthoMaryland has been treating and managing worker's compensation injuries. Currently, our 17 physicians cover every major orthopaedic subspecialty and are either board certified and/or fellowship trained. In all, over 100 employees make up our expert care team.

Our physicians and their specialties

- Responsive
- Objective
- Conclusive
- Cost Effective
- Accurate
- Thorough
- Timely

OrthoMaryland

Innovative solutions. Comprehensive care.

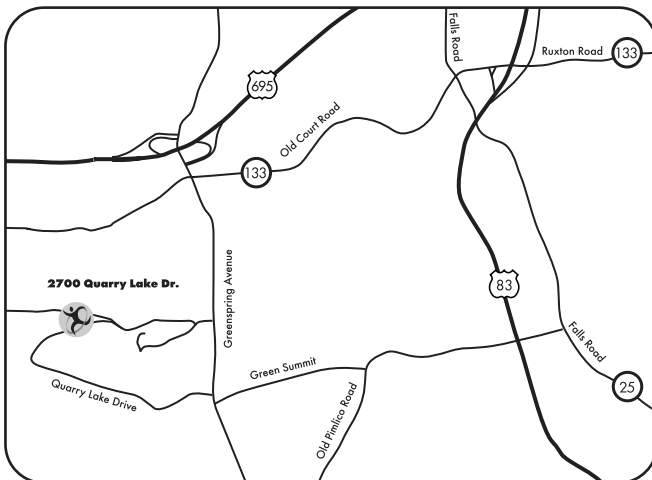

Advanced capabilities, optimal patient outcomes

Our patients receive not only reliable diagnoses and state-of-the-art treatments, but also education and physical or occupational rehabilitation, if required. We offer open MRI (Magnetic Resonance Imaging) on site. And, we have added pain management and physiatry to our areas of subspecialty.

LOCATIONS
